

TechGuard™ Charging Lockers

Individual locking bays easily accommodate up to three devices while keeping them stored, locked, and charged.

*TechGuard 1-Bay
Charging Locker
TL1C-K-US*

*TechGuard 5-Bay
Charging Locker
TL5C-K-US*

*TechGuard 10-Bay
Charging Locker
TL10C-K-US*

Features

- Each bay stores and charges up to three devices and is spacious enough to fit up to a 15-inch laptop with AC charger.
- Tucked inside each bay are two full-rate USB charging ports and AC power outlet. Charging a laptop, tablet, and phone—all at once, while the bay locks and stores your device safely.
- TechGuard Charging Locker is ideal for education, retail, healthcare, and business—anywhere your students, staff, customers, or visitors need to securely charge and store their individual devices.
- Each TechGuard Locker comes equipped with two administration cards. The access card opens locker for inspection, without changing user codes. The reset card opens the locker, resetting user codes.
- Maintenance-free keypad locks are powered by the internal power supply, no batteries required.
- Clear-view windows and interior courtesy lighting allow administrators to monitor contents of bays in shared environments. LED lighting has three settings; on, off, or door activated.
- TechGuard Charging Lockers ship fully assembled and is ready for use, right out of the box (10-bay locker requires some assembly).
- TechGuard Lockers are Listed to UL 60950-1 Information Technology Equipment and FCC certified. For additional information on UL 60950-1 and visit bretford.com/certifications

Warranty

For product-specific warranty information, visit: bretford.com/warranty

Each bay provides sufficient storage to secure and charge a laptop, a tablet, and a phone at the same time.

Clear-view windows and interior lighting make monitoring contents of lockers in shared environments easier.

The keypad lock is powered by the internal system power supply and requires no batteries.

Each TechGuard Locker includes two administration cards for override access. The access card opens the locker for inspection, but keeps the current code. The reset card opens the locker and resets the current code.

Optional rechargeable JumpStarter accessory allows individual bays to be opened with the access and reset cards in the event of a power outage.

Each bay offers an AC charging outlet and two full-rate charging ports.
